

BRING THE CONCERT HOME

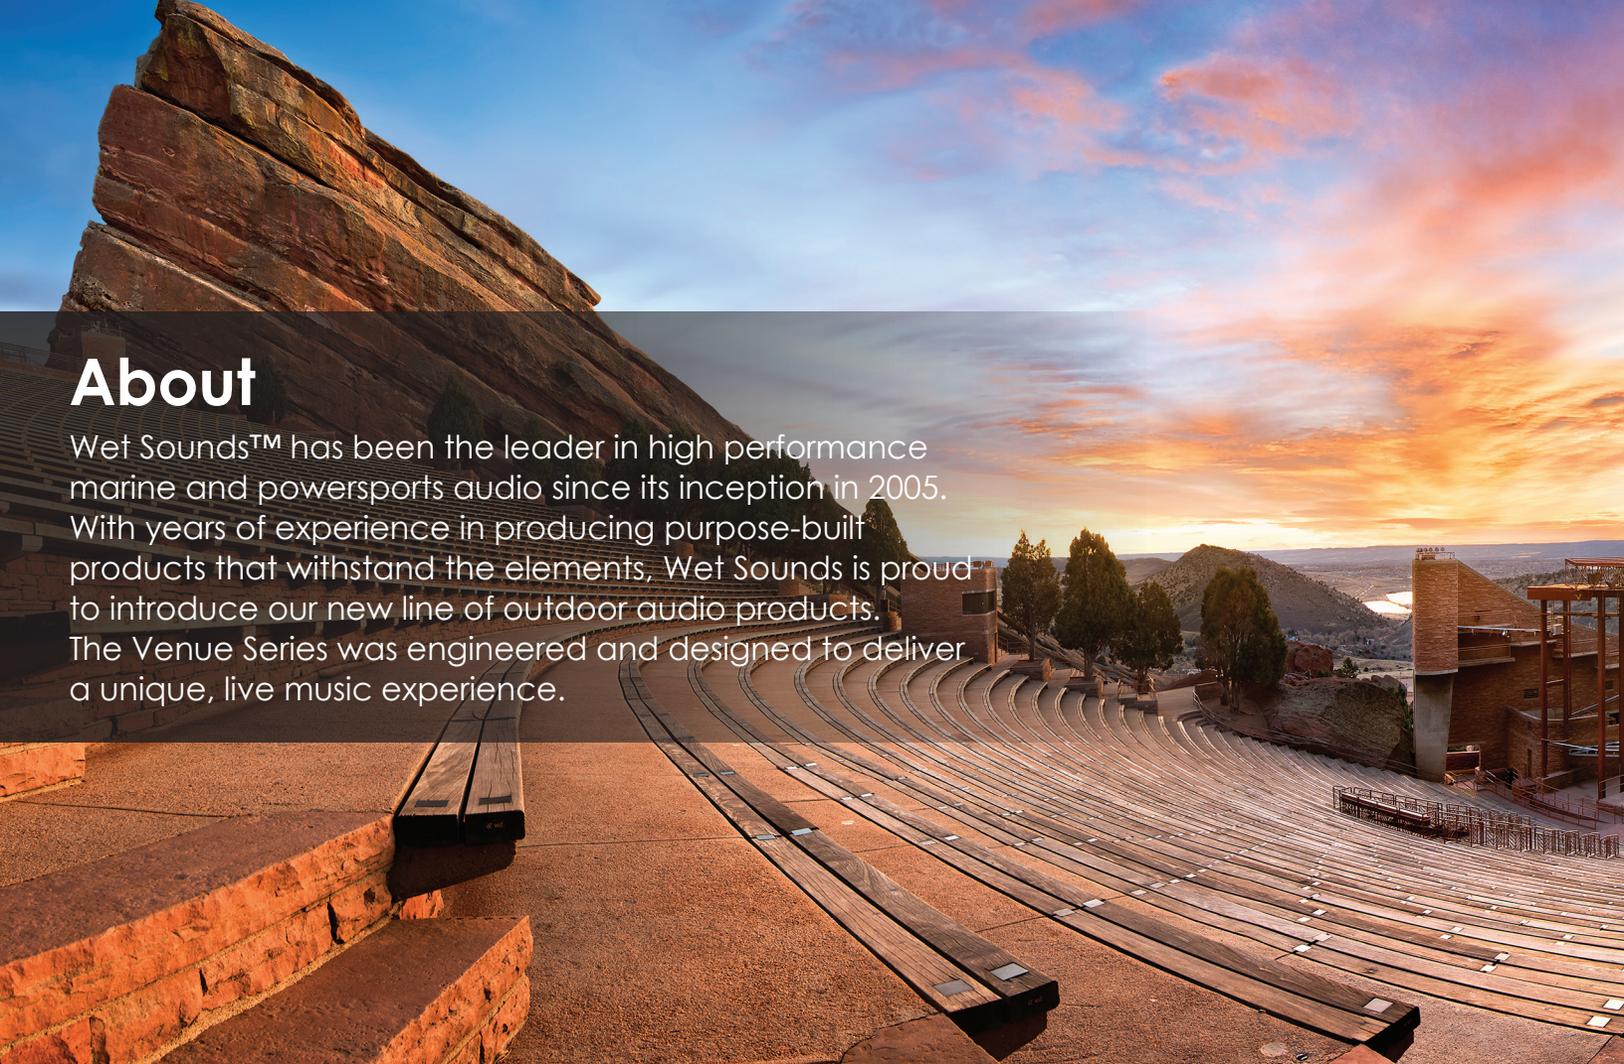

wet sounds

VENUE SERIES

About

Wet Sounds™ has been the leader in high performance marine and powersports audio since its inception in 2005. With years of experience in producing purpose-built products that withstand the elements, Wet Sounds is proud to introduce our new line of outdoor audio products. The Venue Series was engineered and designed to deliver a unique, live music experience.

Live Outdoor Music Experience

VS-8 PRO

8" HLCD Outdoor Speaker

Bring the concert home with Venue VS-8 PRO. Utilizing Wet Sounds' Horn Loaded Compression Driver (HLCD) technology, the VS-8 Pro delivers 200W of balanced sound for large, open-air environments & features Wet Sounds' reaction technology, consisting of opposing dual aluminum passive radiators to deliver superior bass response. The weatherproof enclosure is ready to mount in your outdoor setting utilizing the included mounting bracket, allowing installation in a horizontal or vertical orientation, or can be suspended like a pendant using the eylet in the back.

VENUE SERIES

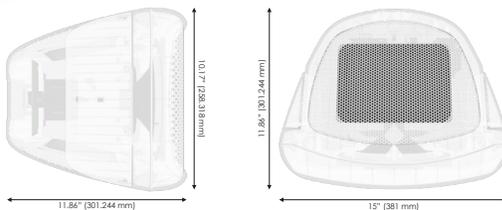

VS-8 PRO

- Horn Loaded Compression Driver Technology (HLCD)
- High strength composite mid-bass driver
- 4Ω and 70v adjustable tap settings
- Adjustable tap settings including 40W, 80W, 120W & 160W
- Dual aluminum passive radiators
- Powdercoated mounting bracket
- Easily mount in horizontal or vertical position
- Rotatable Wet Sounds logo to match orientation
- Optimized for the demanding outdoor environments
- Available in Black or White

|--------------------|---------------|
| Speaker Size | 8" |
| Power RMS / Peak | 200W / 400W |
| Impedance (Ohms) | 4Ω |
| Frequency Response | 20Hz - 20kHz |
| Sensitivity @ 1W/m | 92dB |
| Available Colors | Black / White |

VS-69 PRO

6x9" HLCD Outdoor Speaker

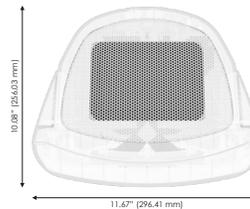

Designed for surface or landscape applications (with optional VS-LS-SP ground spike), the VS-69 PRO provides 150W of incredible sound coverage. Utilizing Wet Sounds' Horn Loaded Compression Driver (HLCD) technology paired up with a durable reinforced composite 6x9" mid-bass driver, a single aluminum passive radiator, provides a well balanced sound with crystal clear vocals, and a superior bass response. The VS-69 PRO can be surface mounted using the included bracket hardware, or can be mounted throughout your landscape with the optional VS-LS-SP ground spike. It can also be mounted atop of the VS-12 LS-SUB for added low end bass.

VS-SMC-65

6.5" Shallow Mount Ceiling Speaker

2.12" (53.84 mm)

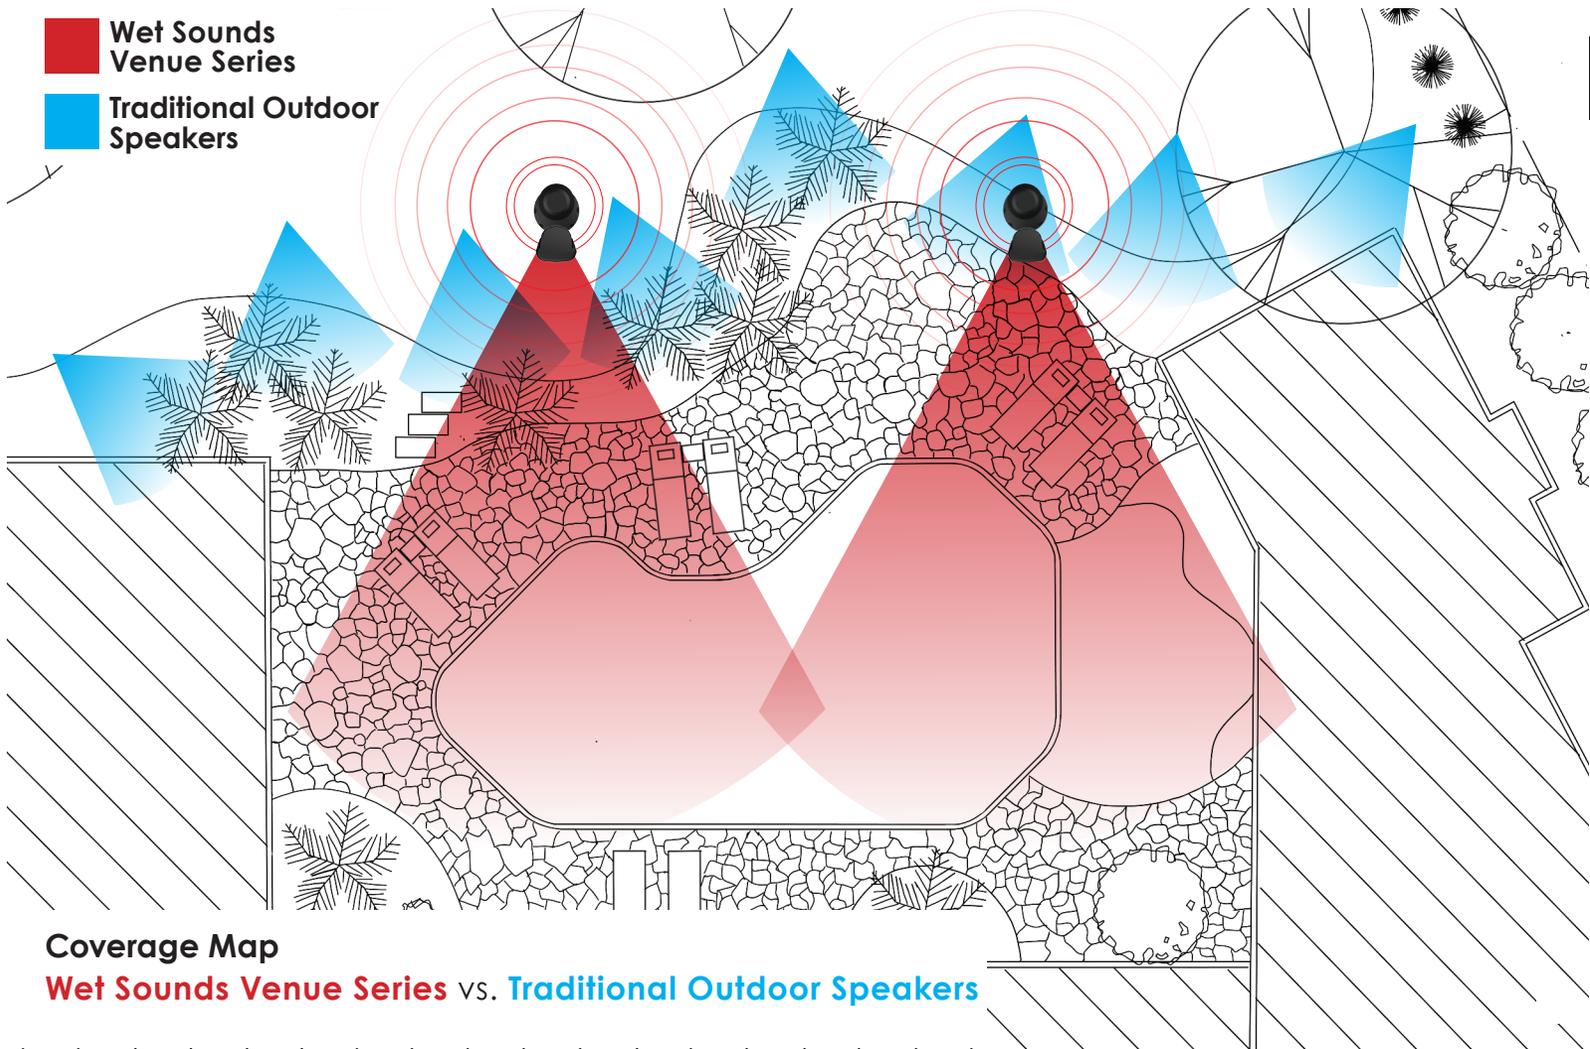

9.3" (236.22 mm)

Specifically designed and engineered for any shallow mount or in-ceiling application, the Venue Series VS-SMC-65 is the perfect addition to your home audio system. Driven by a 6.5" composite mid-bass driver and 1" PEI dome tweeter, the VS-SMC-65 delivers a live concert experience to your indoor/outdoor area. The VS-SMC-65 also features a paintable grille that can be colored to match your ceiling or application. Thanks to the high-strength composite construction, you can enjoy Venue inside or outside for the ultimate live concert experience.

Wet Sounds Venue Series vs. Traditional Outdoor Speakers

VS-12 LS-SUB

12" Landscape In-Ground Subwoofer

The Wet Sounds Venue Series Landscape Sub is a 12" high-output bandpass subwoofer system designed for in-ground use. The fully-composite enclosure combined with a weatherproof port cap delivers low-bass extension and output to rival an outdoor concert. The vertical stack design allows for easy installation. The LS-SUB can be combined with any of the Wet Sounds Venue speakers to create that live music experience at home.

VS-12 LS-SUB

- High strength composite housing
- Internal 300W 12" subwoofer mid-bass driver
- Designed for in-ground use
- Weatherproof port cap to deliver low-bass notes
- Includes mount for VS-69 PRO (for in-ground installation)
- Optimized for the demanding outdoor environments

| Tech Spec. | VS-12 LS-SUB |
|--------------------|--------------|
| Speaker Size | 12" |
| Power RMS / Peak | 150W / 300W |
| Impedance (Ohms) | 8Ω |
| Frequency Response | 20Hz - 200Hz |
| Sensitivity @ 1W/m | 90dB |
| Available Colors | Black |

VS-LS PRO PACKAGE

The VS-LS Pro Package is a complete outdoor system including (2) VS-12 LS-SUB In-Ground Landscape Subwoofers, (1) Pair of VS-69 PRO-Black 6x9" HLCD Outdoor Speakers, (1) VS-1200-AMP 4 Channel 110V Amplifier, and (1) VS-LS-ENC Outdoor Enclosure.

VENUE SERIES

VS-AMPLIFIER SYSTEM-4

110V 1200W 4-Channel Amp w/ Enclosure

The VS-1200-AMP was specifically designed to power Venue Series products while utilizing a 110v power source. The VS-1200 amplifier features include preset selectable gain controls and selectable low pass filter. Speaker wiring is fast and easy with watertight quick connectors. Included is the VS-LS-ENC, a purpose-built landscape enclosure designed to house the Wet Sounds VS-1200-AMP with a plug and play media center, such as the Sonos Port (not included), in harsh outdoor environments. Includes a cooling fan, internal 110v power outlets, and an external 110v cord for easy installation.

| Tech Spec. | VS-1200-AMP |
|--------------------|----------------|
| Power RMS @ 2Ω | 4 x 300W |
| Power RMS @ 4Ω | 4 x 200W |
| Frequency Response | 5Hz - 20kHz |
| Low Pass Filter | 100Hz |
| Operating Voltage | 90VAC - 240VAC |
| Input Sensitivity | 0.2 - 2V |

VS-LS-SP

Landscape Ground Spike

The Wet Sounds Venue Series Landscape Spike for the VS-69 PRO allows you to install the speakers in the ground with a landscape system and adjust the speaker angle for broad coverage. Conventional landscape speakers use multiple small drivers, spaced around an outdoor area. With a VS-69 PRO landscape install, you have the ability to increase output and coverage with fewer speakers.
